PROFILE SUMMARY

Backend Developer with hands-on experience building REST APIs and database-driven applications using Java and Spring Boot. Strong understanding of object-oriented programming, layered architecture, and Oracle SQL. Eager to learn and contribute to real-world software development.

SKILLS

Languages: Java, SQL
Backend & Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs
Databases: Oracle DB, PL/SQL
Frontend: HTML, CSS, Bootstrap
Developer Tools: Git, GitHub, Postman, Swagger, Eclipse, VS Code
Core Concepts: OOP, Exception Handling, Layered Architecture

EDUCATION

Sant Gadge Baba Amravati University <i>Bachelor of Engineering in Computer Science and Engineering</i>	Amravati, Maharashtra (2021-25)
Matoshree Vimalabai Deshmukh Mahavidyalaya <i>Higher Secondary</i>	Amravati, Maharashtra (2020-21)

PROJECTS

Healthcare Hub <i>Java Spring Boot Spring Data JPA REST APIs Oracle SQL</i> - Developed a backend system for a healthcare application using Java and Spring Boot. - Designed and implemented RESTful APIs for efficient data exchange across application modules. - Built a normalized Oracle SQL database improving data consistency and query performance. - Implemented layered architecture (Controller-Service-Repository) for maintainability. - Integrated Google Gemini AI chatbot restricted to healthcare queries for safe user interaction. - Improved code maintainability using clean coding standards and modular design. - Managed source code using Git and GitHub with feature branching and pull requests for effective collaboration.	Jan 2025 – Apr 2025
Library Management System (Mini-Project) <i>Java Spring Boot Oracle DB</i> - Built a Library Management System to manage books, members, and borrowing operations. - Designed and implemented RESTful APIs for book catalog, issue/return workflows, and user management. - Developed backend services using Spring Boot to handle business logic and ensure smooth application flow. - Designed relational database schema in Oracle DB for books, users, and transaction records. - Followed modular and scalable architecture with clean coding practices to improve maintainability.	Sep 2024 – Dec 2024

TRAINING & CERTIFICATES

Java Full Stack Development Training - Naresh i Technologies, Hyderabad
HackerRank Java Certificate – Demonstrated skills in Java, OOP, and problem-solving
HackerRank SQL Certificate – Proficiency in queries, joins, and database operations
